

nankeen™

### the concept

- Nankeen creates chic, fun, and durable cotton accessories for everyday style.
- Nankeen designs fuse 100% cotton, indigo dye, and exquisite patterns, using a traditional Chinese art form dating back to the Song dynasty.
- We are committed to fair labor practices, environmentally sound manufacturing and the preservation of the art form.

### the story

While roaming the back alleys of Shanghai, designer Anne Page and son, John, discovered the perfect fabric for their vision of chic everyday style. Met with much acclaim, Nankeen has since developed into a global lifestyle brand with offices in Shanghai and New England.

### the fabric

This time-honored process, with the intricate dyeing technique, exemplifies a timeless art form which can still be appreciated in the Nankeen collection today. The fabrics are fused with modern designs and colors. Your support will help to rescue and sustain this cultural tradition.
